SR-24-G-2X GRATE TOP STOCK POT RANGE (DOUBLE STOCK POT STOVE)

PICTURED WITH OPTIONAL UNDERSHELF

This double stock pot stove delivers blindingly fast performance for braziers, stock or saute. Metal valve handles with heat shield protection from the combustion chamber stay cool. Welded all stainless steel construction including optional undershelf and drip tray assure sturdy and reliable use. Rear gas connection with pressure regulator are standard. High power three ring burners with clog resistant pilots.

The SR-24-G-2X is a high quality stockpot range built for hard use. A work horse of a range, the SR-24-G-2X will meet the needs of the most demanding chefs.
